

## Keep Me Going - Produced by Run Together

In this plan, we are mixing up the pace: Not only does it make sessions more varied and fun it also does great things for your body and fitness to help you hit that 60min goal. Remember - you decide your pace and if that includes a walk that's fine.

- There will be an **EASY** pace where you should be able to run and hold a conversation with your friend that's running with you. This is for your longer runs.
- 2 STEADY pace will be a little faster than your easy pace and having a conversation should be trickier.
- 3 **QUICKER pace** this will help your fitness and feel harder in comparison to your other runs. Youwon't want to talk on these but you shouldn't be running your fastest either!
